Mobile No.: +13858318934

Provides services of both a technical and non-technical nature in the laboratory service areas. Performs routine and complex laboratory tests in an assigned department of the clinical laboratory to provide physicians with rapid and accurate laboratory test results. Works independently and in a team environment to demonstrate enhanced knowledge, technical skills, problem solving, leadership, education, and administrative abilities. Works under the direction of specialist, lead and/or supervisor.

### **PERSONAL INFORMATION:**

Born on March 17, 1996 in Davao City.

### **EDUCATIONAL BACKGROUND:**

BACHELOR IN MEDICAL LABORATORY SCIENCE, graduated as Magna Cum Laude and Valedictorian in March 2016 at San Pedro College. Academic Scholarship and Davao EBSU-STEP Scholarship grantee. Consistent Dean's Lister.

### **PROFESSIONAL EXPERIENCE**

#### **As a Medical Laboratory Scientist**

Currently a Medical Laboratory Scientist II NYQ at Associated Regional and University Pathologists (ARUP) Laboratories in Department 897 – Clinical Toxicology 3 on the determination of the exposure of newborns to drugs in utero and the presence of explicit drug abuse. Also adept on the services offered by Department 811 – Hemostasis/Thrombosis on specialized testing to aid in the diagnosis of multiple and complex coagulopathies.

A Senior Medical Laboratory Scientist, a proficient Water Microbiologist, an awarded Star Employee, and a Laboratory Ambassador at Davao Doctors Hospital - a privately-owned, tertiary-level institution with a 250-bed capacity and a Gold Accreditation from Accreditation Canada International (ACI).

A Senior Lab Staff who performed diagnostic laboratory procedures, both manual and automated, in Clinical Microscopy, Hematology, Clinical Chemistry, Immunology, Serology, Microbiology, Blood Bank and Histopathology; complied with the Daily Maintenance and Quality Control and Assurance in all analyzers; instructed MLS interns during internship; and, trained to give the unparalleled standard of patient care possible.

#### **As a Clinical Instructor/Professor**

A full-time Clinical Instructor conducting Continuing Education Program (CEP) and Skills Laboratory on Immunology, Serology and Blood Banking (ISBB) for the Fourth Year Medical Laboratory Science interns at San Pedro College.

A full-time Professor of the Medical Laboratory Science Department of San Pedro College handling Blood Banking, Bacteriology, Immunology and Serology, Histopathologic Techniques, and Principles in Medical Laboratory Science.

For SY 2017-2018 and SY 2018-2019, a part-time Clinical Instructor for ISBB CEP and Skills Laboratory. For SY 2016-2017, a part-time Clinical Instructor for Microbiology CEP and Skills Laboratory.

## **AFFILIATIONS**

### **ARUP Laboratories**

-Medical Laboratory Scientist II NYQ, Clinical Toxicology 3  
(June 2022 – Present)

-Medical Laboratory Scientist II, Hemostasis/Thrombosis  
(May 2021 – June 2022)

### **Davao Doctors Hospital**

-Medical Laboratory Scientist (Training: September 2016)  
(October 2016-November 2019)

### **San Pedro College**

-Part-time Clinical Instructor and CEP/Skills Laboratory Instructor  
(November 2016-August 2019)

-Full-time Clinical Instructor and CEP/Skills Laboratory Instructor/Professor  
(November 2019-March 2021)

## **PROFESSIONAL DUTIES**

1. Receives request and explains to patient the nature of the procedures to be done and releasing schedules
2. Receives, collects and labels specimen from patient
3. Analyzes and interprets lab reports with highest level of accuracy
4. Operates and calibrates laboratory equipment; maintains cleanliness of each laboratory area
5. Ensures maintenance and safe, orderly and efficient control of equipment and supplies in the laboratory
6. Collaborates seamlessly with clinicians regarding unclear requests, critical results and patient's possible diagnosis
7. Coordinates with all hospital sections as required by day-to-day operations, in the process complying with hospital policies, rules and

- regulations and the standards for the faithful delivery of service to patients
8. Consistently implements the quality objectives and procedures
  9. Undertakes action to correct non-conformity that might be observed or found over the work area
  10. Performs new work as may be assigned by the Laboratory Head/Chief Medical Technologist.
